We have received from our old friend, ISAAC N. PARKER, Portsmouth, Va., an interesting account of the celebration by the colored people of portions of Norfolk and Nansemond counties of the fifteenth amendment. They assembled, 2,500 strong, at Sleepy Hole, formed in procession, listened to appropriate addresses in explanation of the operations of the amendment, partook of a luxurious dinner, and enjoyed themselves generally like men who know how to appreciate and deserve their newlyacquired rights.

Mr. PARKER closes his account of the celebration of their charter of liberty, on the day ours was proclaimed, by expressing his belief that differences as between man and man are gradually dying out; and yet he declares, like a sensible man, that he is not looking for, nor anxions to enforce, the doctrines of social equality, because he concedes to others, and claimes for himself, the right to say who shall visit his house.

Southern Rebel Courtesy.

A rebel paper published at Tuscaloosa, Alabama, shows the breeding of its editor, and how far from loyal the people of that State still are by making making the following notice of Mr. ACKERNAN, the new Attorney General :

demi carpetbagger, who has lately been confirmed as Grant's Attorney General, is a lawyer of fifth rate abilities, and below mediocrity in general intelligence. There are in the State and imigrated to Georgia about 20 years since; consequently he is part carpet-bagger, part scallawag-equal to a dirty dog.'

The same paper, the Journal, thus dismally points out its bitter regret of the failure of the rebels to destroy the Union and build up a Confederacy whose corner-stone should be

"It is an absurdity for an enslaved people to celebrate a day devoted to Liberty and Popular Rights. It is an absurdity for the people of the South to celebrate the Fourth of July, while they are bound with the shackles of a tyranny as oppressive and odious to them as was that the overthrow of which that day commemorates. True, these people might do so with great consistency, because they lost their liberty in an as there are old shafts with the evidences of earnest and vigorous effort to perpetuate the having been worked on the Llano and other principles of liberty. But their oppressors have laid claim to the day. They have made it a national festival, and the amount of buncombe and gunpowder exploded and bad whiskey drank is the measure of the celebrator's loyalty to the Government. Hence, for us of the South to celebrate it would be to admit that which is false," &c.

North Carolina.

The Raleigh Standard seems to entertain no doubt that the Republicans will carry that State at the ensuing election. It states in very confident and positive terms that both the Legislature and the delegation in Congress will be Republican. It assures its rebel opponents to take possession of its government.

The Standard makes no reference to any outbreak requiring so rigid a remedy as martial law. We think, therefore, that the report that the Governor had proclaimed it in a portion of the State was a Roorback.

LETTERS FROM THE PEOPLE.

Information for Texas Immigrants.

GALVESTON, June 28, 1870. To the Editor of the New Era:

The portion of Texas laid off into counties comprises a territory of 196,299 square miles. and it is estimated that the territory not so laid off includes 72,385 square miles more, making original plan. a total of 268,634 square miles. In our description we confine ourselves to the portion inanded in the organized counties of the State. Other portions may ultimately become valuable for mineral and agricultural purposes, but at present the Comanches and other nomadic tribes use the territory for their hunting ground.

Texas is naturally divided into two general divisions. About one-fourth of its area is included in what is called the coast region, a tier of counties, three or four deep, bordering on nated Daniel Voorhees for Congress the Gulf of Mexico. After passing over this flat region, the country becomes more rolling, even to hills of considerable magnitude, by courtesy denominated mountains. Most of those seeking homes in Texas expect to make at least as plowing is concerned, with an alli their living out of the soil-they are looking weighs 350 pounds-and is perfectly docide and in the right direction. Excepting some heavily-timbered portions of Texas, the whole State is admirably adapted to The Fifteenth Amendment in Vir- stock raising. True, as the country becomes more densely settled and covered with stock, the old sedge grass is killed out, but in a year or two a thick mat of luxuriant grass of an improved quality forms a sod and covers the ground. These improved grasses mostly belong to the Mesquete species, with an occasional batch of the wild rye and rescue. Cattle, horses and mules may be advantageously raised almost anywhere between the Sabine and the Rio Grande. Sheep do well upon the sandy islands of the coast or in the rolling regions in the interior. In low and black land they are not so thrifty. As to health, those who settle in low flat lands, and use creek water, are liable to chills and fevers. In the coast cities they are liable to yellow fever; but upon the whole Texas is a remarkable healthy State. The hilly regions of the west cannot be excelled for health on the continent. Those who use cistern water, and are prudent and careful, are healthy anywhere in the State.

As to society, the large cities are Galveston, Houston, Austin, and Jefferson, and have fine cl ches of Catholics and various Protestant denominations; and there are but few neighborhoods of any size in the State without its Judge CARPENTER, who resigned a place on church and preacher, and schools. GERMAN BITTERS.

A Bitters without Alcohol or Spirits of any kind, Is different from all others. It is composed of the pure Juices, or Vital Principle of Roots, Herbs, and Barks. (or, as medicinally termed, Extracts,) the worthless or inert portions of the ingredients not being used. Therefore in one Bottle of this Bitters there is contained as much nedicinal virtue as will be found in several gal lons of ordinary mixtures. The Roots, &c., used in this Bitters are grown in Germany, their vital principles extracted in that country by a scienific Chemist, and forwarded to the manufactory tled. Containing no spirituous ingredients, this Bitters is free from the objections urged against all others; no desire for stimulants can be induced from their use, they cannot make drunktle upon lands, under the Pre-emption or Home- ards, and cannot, under any circumstances, have any but a beneficial effect.

HOOFLAND'S GERMAN TONIC,

Was compounded for those not inclined to extreme bitters, and is intended for use in cases It tells how to take up government land under when some alcoholic stimulant is required in the Homestead Act, and gives full instructions. connection with the Tonic properties of the Bitters. DR. HOOFLAND'S PODOPHYLLIN.

Or Substitute for Mercury Pills. TWO PILLS A DOSE. The most powerful, yet innocent, Vegetable Cathartic known.

It is not necessary to take a handful of these Pills to produce the desired effect: two of them act quickly and powerfully, cleansing the Liver, stomach, and Bowels of all impurities. The orincipal ingredient is Podophyllin, or the Alconolic Extract of Mandrake, which is by many times more powerful, acting and searching than the Mandrake itself. Its peculiar action is upon the Liver, cleansing it speedily from all obstructions, with all the power of Mercury, yet free from the injurious results attached to the use of

For all diseases, in which the use of a cathartic indicated, these Pills will give entire satisfacion in every case. They NEVER FAIL. In cases of Liver Complaint, Dyspepsia, and Costiveness, Dr. Hoofland's German Tonic hould be used in connection with the Pills. The tonic effect of the Bitters or Tonic builds up the system. The Bitters or Tonic purifies the Blood, strengthens the Nerves, regulates the Liver, and gives strength, energy, and vigor. such cases will convince the most incredulous of their curative effects.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Stomach, Bad Taste in the Mouth, Billious Attacks, Palpitation of the Heart, Copious Discharges of Urine, Pain in the regions of the Kidneys, and a hundred other painful symptoms, which are the offsprings of Dyspepsia, are cured by these Bitters.

Cleanse the Vitated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE, and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. Keep your Bowels active with the Pills, and one up the system with Bitters or Tonic, and no lisease can retain its hold, or ever assail you. Recollect that it is DR. HOOFLAND'S GER-MAN REMEDIES that are so universally used and highly recommended; and do not allow the Druggist to induce you to take anything else that he may say is just as good, because he makes a arger profit on it. These Remedies will be sent by Express to any locality, upon application to the Principal Office, at the German Medicine Store, No. 631 Arch street, Philadelphia, Pa.

THE POLITICAL DEPARTMENT.

Upon all questions involving the especial interests of the colored American citizen, the simple rule of equal justice for all men will govern the policy of the New Era. It will demand the recognition of no right for one citizen which it will not freely accord to every other. It will oppose any attempt to confer privileges upon a class, that are withheld from the humblest citizen in the land. It will demand for every citizen equality before the law, and full protection of person and property in every State and Territory of the National Union.

The New Era will take high national ground upon all public questions, and labor to inspire a oneness of purpose and encourage unity of action, especially among the newly-enfranchised people of the Reconstructed States. Remembering the past history of the Republican party, and recognizing what it has done for the colored people of the nation, the NEW ERA will give its hearty support to that party, reserving to our selves, however, entire independence on political questions, and the right to go further than arty platforms and party policy, whenever in our opinion the rights of humanity or the interests of any portion of the people require it at

THE EDUCATIONAL DEPARTMENT.

By education the people of a free Government, such as ours is intended to be, are better qualified to discharge their duties to the State, to one another, and to God. The nation will ever fird its surest safeguard in the intelligence of its voting masses, and the journal which would promote the highest good of government and people must lend its energies and its power to the work of educating that people. Especially is the agency of the press needed by that portion of the people, colored and white, who, either in slavery or under the ban of its blighting influences, have been deprived of the opportunities enjoyed by their more favored brethren of the free States.

The Freedmen's Bureau had under its charge during the past year, as shown by the last annual report, 114,522 colored pupils in the day schools and 89,731 in the Sunday schools, employing 6,650 teachers. About 190,000 of these pupils were slaves at the commencement of the war The educational department of this paper will contain regular contributions from the Freed men's Bureau and other matter adapted to the capacities and needs of this large number of pupils and teachers, thereby making the New ERA a valuable auxiliary in the scheme of edu-

THE INDUSTRIAL DEPARTMENT. The industrial interests of the colored people will claim and receive a large share of our attention. We adopt the following extracts from the address promulgated by the Colored Labor Convention held in this city in December last, indicating the views and policy of the New Era on this subject:

"For our own good and the welfare of our country in all things pertaining to her material and moral well-being, we seek a better and broader opportunity to gain knowledge in the fields of agricultural, mechanical, commercial, artistic, and professional labor, and this knowl edge we would energise, direct, and make more argely effective through the enlightening and sanctifying influence of education. Our mottoes are liberty and labor, enfranchisement and edueation! The spelling-book and the hoe, the hammer and the vote, the opportunity to work and to rise, a place on which to stand, and to be and to do, we ask for ourselves and children as the means in the use of which, under God we are to compass these achievements which furnish the measure, the test, and justification of our claim to impartial treatment and fair

"That this end may be reached, we ask, first of all, that trades be opened to our children, and that they be given the benefit of a just and equitable system of apprenticeship; in the second place, that for every day's labor given we be paid full and fair remuneration, and that no avenue of honest industry be closed against us; and thirdly, since we believe that the intelligence, the elevation, and happiness of all people depends in no small degree upon the diversity of their iudusdrial pursuits, we ask that we may work in the printing office, whether private or governmental, in the factory, the foundry, the workshop, upon the railroad, the canal, the river, the steamboat, in the warehouse, the store, wherever labor is to be done and an able and faithful workman is wanted we conceive that we may claim a place without distinction as to our color or former condition, since all that can be demanded by the employer is ability, faithful performances of the contract made, and the employee reasonable treatment and the compensation promised. Hence, while we condemn that spirit which in its proscriptive regulations denies us industrial opportunity and the fruits of honest toil, we rejoice in all those evidences of prospective good which we and other laboring classes see in the erection of factories and foundries in Maryland, Virginia, Kentucky, Missouri, Tennessee, Georgia, and Alabama, promising that our strong and labor hardened hands, our intellectual powers, quickened by the influences of education, and our purposes made doubly earnest by considerate treatment and the prospect of just compensation, shall all be given to the development of the industrial resources of our

several States in the interest of our employers.' The New Era will be made a desirable visitor for the family and the fireside, and we earnestly appeal to our friends everywhere to aid us by their subscriptions and their influence.
